MEDICAL GENETICS
RESEARCH DAY
FRIDAY NOVEMBER 12TH
10am-7pm @ UBC LSC
2350 Health Sciences Mall, UBC Campus

**Keynote Speaker Dr. Nada Jabado**
Professor of Pediatrics and Human Genetics at McGill University. Fellow of the Royal Society of Canada, Academy of Science, Life Sciences Division. Studies epigenetic deregulation with mutations in histone variants associated with glioblastomas

**Faculty Speakers**
Dr. Freda Miller
Professor at Michael Smith Laboratories. Studies how growth factors regulate the genesis and growth of neurons and mesenchymal precursor cells and their role in tissue repair.

Dr. Michael Kobor
Professor at BC Children’s Hospital Research Institute. Studies molecular epigenetic regulation in response to environmental stressors.

Register Here by October 31
Poster registration deadline: October 22
